TECH SKILLS

- Languages: TypeScript, JavaScript, Ruby
- Frontend: React.js, Next.js
- Backend: Node.js, NestJS, Express.js, Ruby on Rails
- Databases & ORM: PostgreSQL, MySQL, MongoDB, Redis, Prisma, TypeORM, Active Record
- Event-Driven & Automation: Inngest, scheduled workflows, queue orchestration
- Payments: Stripe Billing, Stripe Connect, webhook-driven payment logic, Epayco
- AI Engineering: OpenAI APIs, prompt design, document parsing, automation workflows
- Integrations: Twilio, SendGrid, Zapier, VAPI, Slack, Google, Meta, REST APIs
- Testing & Quality: Jest, API/middleware testing
- Cloud & Tools: Vercel, AWS, Git, Swagger/OpenAPI, Scrum

ABOUT ME

Full-Stack Developer with 3+ years of experience building scalable SaaS products using TypeScript, Next.js, React, Node.js, Ruby on Rails, Prisma, and PostgreSQL.

I design and deliver end-to-end systems for US and Canadian markets, including multi-tenant architectures, payment and billing workflows, AI-powered automations, and event-driven backend processes.

I bring an engineering + operations background, with strong business awareness, ownership mindset, and focus on reliability, performance, and product impact.

WORK EXPERIENCE

- **Full-Stack developer**

Guarapo Labs

January 2023 – Present

Involvement in the development of multiple projects across diverse industries, showcasing adaptability, technical expertise, and a commitment to delivering high-quality solutions:

- Warehouse Management System:
 - Developed the API using Ruby on Rails, PostgreSQL, and Active Record ORM.
 - Collaborated in a SCRUM environment to deliver a robust and scalable solution.
- Real Estate Application (Witly):
 - Utilized TypeScript and Next.js, integrating multiple APIs and AWS services.
 - Contributed to backend and frontend tasks, ensuring a seamless user experience for real estate agents in the US and Canada.

SOFT SKILLS

- Excellent communication
- Problem diagnosis and resolution
- Team collaboration
- Decision-making
- Autonomy and ownership
- Code review and engineering best practices

EDUCATION

- **Full Stack Developer**

Henry
2022

- **Mechanical Engineer**

Universidad Del Norte
2012

LANGUAGES

- **Spanish**
Native
- **English**
B2

- Cámara de Comercio de Barranquilla (CCB):
 - Worked with NestJS, MySQL, TypeORM, and PayU integration to enhance the platform.
 - Improved the frontend using Next.js, enabling users to purchase and enroll in courses efficiently.

Comarketing.com – Full-Stack Lead Developer

Architected and launched a referral SaaS platform from concept to production, taking full ownership of system design, implementation, and scalability.

- Built and launched Comarketing from scratch as sole/full-cycle lead developer, owning the product from idea to production.
- Led the complete development lifecycle end-to-end: backend architecture, frontend implementation, database design, UI/UX execution, deployment, and ongoing maintenance.
- Designed and implemented a multi-tenant SaaS platform using TypeScript, Next.js, Node.js, Prisma, and PostgreSQL, scaling it to 3,500+ users across the US and Canada.
- Architected core business systems including authentication, billing/payments, automations, integrations, and operational workflows.
- Established production reliability through continuous monitoring, performance optimization, bug fixing, and iterative feature delivery.
- Owned long-term platform evolution, improving scalability, maintainability, and user experience through continuous technical and product enhancements.

- **Operations Manager**

Serinco SAS

January 2016 - November 2022

Managed procurement, personnel, client relationships, and cost estimation for a heavy machinery maintenance and metalworking workshop, ensuring efficient operations and business performance.

- **Maintenance Analyst → Maintenance Specialist**

Coca-Cola (FEMSA)

February 2013 – December 2015

Managed industrial maintenance programs, improving equipment reliability and reducing downtime by 10%. Supported ISO/OHSAS recertifications and helped achieve a 30% reduction in CO₂ emissions through Operational Excellence initiatives.
